Rosé 

ELEGANT AND MYSTICAL DESCRIPTION

In every drop of IXU Náhual Rosé lies the strength and sweetness of a woman. It's a mezcal made from the wild Cupreata agave from Michoacán, baked in stone ovens, and distilled in copper, but it receives a delicate touch of red fruits and rose petals, achieving a subtle pink hue that illuminates the glass like an eternal sunset.

This elixir honors the wisdom, sensitivity, and power of the women who, with steady hands and strong hearts, preserve the mezcal tradition. Upon tasting, the freshness of the red fruits awakens the spirit's joy, while the floral aroma caresses the soul with its softness.

IXU Náhual Rosé: a tribute to the feminine essence, a celebration of life and love.
